(Member of the World Federation of Exchanges)

The Stock Exchange of Mauritius (SEM) and I-Net Bridge have signed a contractual agreement to distribute SEM's end of day data

Mauritius, 1 September – The Stock Exchange of Mauritius (SEM) has signed a contractual agreement, today 01 September 2010, with I-Net Bridge to distribute SEM's end of day data as part of I-Net Bridge's suite of products. I-Net Bridge will also display SEM's market indices for both the Official Market and the DEM on the Distributor's websites, namely www.BusinessLIVE.co.za and www.inet.co.za.

Sunil Benimadhu, Chief Executive of SEM, said: "The coverage of SEM's data on I-Net Bridge constitutes yet another move that will further enhance the SEM's visibility globally and accelerate the Exchange's integration within the international financial markets, more particularly in South Africa where I-Net Bridge's main offices are located. Such initiatives will contribute towards putting the SEM on the radar screen of a wider spectrum of international investors and attract more foreign investor interest for our listed stocks."

Anina Morley, Managing Director of I-Net Bridge said: "Through our proven data integrity and strong analytical products we believe that the inclusion of SEM's data will enhance I-Net Bridge's strategy in expanding our coverage of African data to the global community."

About the Stock Exchange of Mauritius

The Stock Exchange of Mauritius (SEM) was incorporated in Mauritius on March 30, 1989 under the Stock Exchange Act 1988, responsible for the operation and promotion of an efficient and regulated securities market in Mauritius. Since October 6, 2008, the SEM became a public company, and over the years the Exchange has witnessed a significant overhaul of its operational, regulatory and technical framework to reflect the ever-changing standards of the stock market environment worldwide. SEM is today one of the leading Exchanges in Africa and a member of the World Federation of Exchanges (WFE).

About I-Net Bridge

I-Net Bridge is a leading South African provider of economic data, financial market data and corporate market intelligence. I-Net Bridge develops a wide range of financial products including workstations, web applications and data feeds to the professional investment community.
